

ECI Universal Precautions and Recognition of Common Childhood Illnesses Test

1. At what times must a provider wash or otherwise sanitize their hands?

2. True or False

A provider must report the following acts to the Texas Department of Family and Protective Services (DFPS):

- child abuse and neglect by a parent, family member, or caregiver. Providers must make reports within 48 hours from the time they first suspect a child has been abused or neglected;
- abuse of children in licensed child-care facilities or treatment centers for the state of Texas;
- abuse, neglect, or exploitation of elderly persons or adults with disabilities; or
- abuse of clients served by the Texas Department of State Health Services (DSHS) or Texas Department of Aging and Disability Services (DADS) employees in state hospitals or state schools.

3. True or False

A person with knowledge of abuse or neglect may delegate the responsibility of reporting suspected abuse to the ECI supervisor.

4. When reporting suspected abuse or neglect, what information must be documented in the child's record?

5. True or False

Chapter 81 of the Texas Communicable Disease Prevention and Control Act can be located at <http://www.statutes.legis.state.tx.us>. Chapter 81 covers all the aspects related to communicable diseases.

6. True/False

A provider must ensure confidentiality of information on health status of a child or family member and release this information only to persons designated by verbal consent by the parent.

7. True or False

The provider must comply with parent's rights related to child and family records by ensuring the parent has the right to:

- receive a description of what personally identifiable information is maintained, the types of information sought, the methods used in gathering information (including the sources from whom information is gathered), and how the information will be used;
- receive a description of how personally identifiable information is stored, disclosed to third parties, maintained, and destroyed;
- inspect and review of the child's records (paper or electronic);
- receive a response from a contractor to reasonable requests for explanations and interpretations of the records;
- receive, upon request, copies of the records containing the child's information;
- have a representative of the parent inspect and review the records; and request copies of the contractor's policies and procedures on confidentiality.

8. All blood and body fluids should be treated as if they contain blood borne pathogens, such as human immunodeficiency virus (HIV) and hepatitis B virus (HBV). HIV and HBV can be found in: (identify 4 fluids)

1. _____
2. _____
3. _____
4. _____

9. When washing hands, how long should you run them under a stream of water while vigorously applying soap?

10. True or False

ECI administers medicine if the child needs a dose during services.

11. True of False

ECI services cannot be provided if the child has an oral temperature of 101.2.

12. True of False

ECI services cannot be provided if the child has an armpit temperature of 99.0.

13. True of False

ECI services cannot be provided if the child has a rash and has vomited two times in the last 6 hours.

14. True of False

ECI services cannot be provided if the child has ringworm of the scalp.

15. Match the condition with the symptoms:

Chicken pox	slowly spreading, balding patches on scalp with broken-off hairs
Common Cold	blisters on skin, commonly hands & face that open & become covered with yellowish crust
Head Lice	small, raised, red bumps or blisters on skin with severe itching. Often on the thighs, arms and webs of fingers
Impetigo	runny nose, watery eyes, fatigue, coughing and sneezing
Ringworm of the scalp	fever and vesicular rash that may appear first on head & then spread to body. Usually 2 or 3 crops of new blisters that heal, sometimes leaving scars
Scabies	itching and scratching of scalp. Presence of pinpoint-sized white eggs (nits) that will not flick off the hair shaft.

16. If a child is excluded from services based on running a fever. At what time can ECI services resume?

- a. When the child is taking fever reducing medication for 24 hours
- b. When fever subsides and no earlier then 24 hours after close of business on the day the child was excluded from services
- c. When the child has not taken fever reducing medication for 24 hours
- d. None of the above
